Family meeting day!

With much honour and with pleasure we did meet with Kate and Bryson on Sunday October 14th 2018. Bryson, one of the boys of Katrina and grandson of Gieta, our dearest cousin, did plan their Europe trip. Starting from Amsterdam, they would love to go back to the roots of Bryson. So we visited the small historical village of Muiden. First of all we made a walking tour along side biggest [aquaduct](#) of Europe with 6 lanes on both sides, driving below the river the Vecht! And because of this aquaduct, telling them about the big challenge to remove the [Pippi Langkous](#) house for about 800 meters over the river to its final place.

Walking through Muiden, showing the small and tiny house where Gieta's grandmother lived.

And then after a lunch break at the locks, finally it was opening hours for the [Muiderslot](#) castle.

It has been a lovely and extremely warm day (10 degrees warmer than normal) with a lovely couple .
